List of Valve Details

Standard Engineering Practices

Document: 2.3

Date 3-15-02

Supersedes:

This is the current list of Valve details that are available in the drop down window on your Valve Schedule. These can be seen by selecting the "Data" sheet in the Valve Schedule Workbook. You can add a Custom detail to your schedule by adding the detail name to the bottom of the list. You can then select it in the drop down. It will not automatically be added to your Legend Sheet. It will be necessary that you manually add your custom detail to the Legend Sheet.
